>> Advantages

- ✓ Our harnesses have a dual colour scheme allowing quick and easy identification of the straps for the shoulders and the thighs.
- ✓ The yarn used in the seams are in contrasting colours, making it easier to control the harness.
- ✓ Our harnesses have a unique sit strap ergonomically designed for extended comfort.
- ✓ The D-rings used in our harnesses have a high breaking strenght with no visible welding marks.
- ✓ The webbing used in manufacturing Singer® harnesses is made of Dope Dyed High Tenacity Polyester Yarn which has six times higher resistance to UV colour degradation over the normal dyed webbing. This procedure provides a unique resistance against UV degradation, 6 times superior than straps classically tinged. This method provides a greater longevity of the final product.

>> Conformity

This product has been tested according to the following European standards:

- **EN 361: 2002.** Personal Protective Equipment against falls from a height. Full body harnesses.
- **EN 358: 1999.** Personal protective equipment for work positioning and prevention of falls from a height.

Belts and lanyards for work positioning or restraint

It complies with European **Regulation (EU) 2016/425** on Personal Protective Equipment (PPE). **Category III.** EU type examination certificate (**module B**) issued by **SATRA (Ireland)**. Notified body n°2777.

The PPE is subject to the conformity assessment procedure based on quality assurance of the production process

(**Module D**) set out in Annex VIII (Category III) under surveillance of **SGS Fimko Oy (Finland)**. Notified body n°0598.
