

1.50 m    Ø 12 mm

Made under

>> Type of use (\*)

Light industry    Heavy industry    Structural works    Maintenance    Public works

>> Technical features

- ✓ Double lanyard (rope) in polyamide.
- ✓ 3 strand polyamide rope.
- ✓ Length: **1,50 m.**
- ✓ Diameter: **12 mm.**
- ✓ With energy absorber, karabiner and hook at each end.
- ✓ **Packing:**
  - carton of 10 piece.
  - bundle of 1 piece.

>> Advantages

- ✓ The spliced end is protected with a strong transparent protective covering sleeve.
- ✓ This not only protects the splicing but also make the splicing visible for easy inspection prior to use.
- ✓ The loops at the end are protected by an abrasion resistant thimble. This prevents the rope from being damaged by the metallic contact of the connector.
- ✓ The rope also has a coloured tracer strand which loses its colour in due course of time, to show that the lanyard is now unfit for further use.
- ✓ For application where 100% tie-off is required, mostly in situations where the user has to change position frequently while working, climbing up or down.
- ✓ The energy absorbing forked lanyards offer the facility of attaching one lanyard and detaching the other lanyard thereby making the user secure at all times.

>> Conformity

This product has been tested according to the following European standard:

- **EN 355: 2002.** Personal protective equipment against falls from a height. Energy absorbers.
- **CNB/P/11.063: 2014.** Co-ordination of notified bodies. Vertical Recommendation for Use sheets (RfUs). VG11.

It complies with European **Regulation (EU) 2016/425** on Personal Protective Equipment (PPE). **Category III.**

EU type examination certificate (**module B**) issued by **SATRA (Ireland)**. Notified body **n°2777**.

The PPE is subject to the conformity assessment procedure based on quality assurance of the production process (**Module D**) set out in Annex VIII (Category III) under surveillance of **SGS Fimko Oy (Finland)**.

Notified body **n°0598**.

>> Type of use (\*)

>> Technical features

- ✓ Full body harness.
- ✓ Two attachment points:
  - One dorsal D-ring.
  - One chest textile loops.
- ✓ Polyester strap of 44 mm.
- ✓ Dorsal webbing holding cross plate.
- ✓ Plastic rings of contrasting color for straps holding.
- ✓ Adjustable thigh straps.
- ✓ With sit strap.
- ✓ **Weight: 920 g.**
- ✓ **Size:** one size only.
- ✓ **Colour:** black / orange.
- ✓ **Packing:** - carton of 10 pieces.  
- under individual box.

>> Main advantages

- ✓ Our harnesses have a dual colour scheme allowing quick and easy identification of the straps for the shoulders and the thighs. It makes it easier to wear the harness properly.
- ✓ The yarn used in the seams are in contrasting colours, making it easier to control the harness.
- ✓ Our harness has a unique sit strap ergonomically designed for extended comfort.
- ✓ The sit strap & the thigh strap are designed so that they are made out of a single piece of webbing to give better load distribution between the thigh & sit straps
- ✓ The webbing used in manufacturing harness is made of Dope Dyed High Tenacity Polyester Yarn which has six times higher resistance to UV colour degradation over the normal dyed webbing.  
This procedure provides a unique resistance against UV degradation, 6 times superior than straps classically tinged. This method provides a greater longevity of the final product.
- ✓ **ISO 9001** certified manufacturing.

>> Conformity

This product has been tested according to the following European standard:  
- **EN 361: 2002.** Personal Protective Equipment against falls from a height; full body harnesses.  
It complies with European **Regulation (EU) 2016/425** on Personal Protective Equipment (PPE). **Category III.**  
EU type examination certificate (**module B**) issued by **SATRA (Ireland)**. Notified body n°2777.  
The PPE is subject to the conformity assessment procedure based on quality assurance of the production process (**Module D**) set out in Annex VIII (Category III) under surveillance of **SGS Fimko Oy (Finland)**.
